

# Planning page for Habitat research on Power Point of:

\_\_\_\_\_

**(Geographical Location)**

**Teacher should select books, publications and internet sites appropriate for students to use for research. Students should also have a couple of sessions on the basics of a Power Point Presentation before creating one.**

**Animal chosen:** \_\_\_\_\_

**Students can Google animals indigenous to either the Adirondack Mountains or the Blue and John Crow Mountains**

**Guiding research questions:**

- **How would you describe the geographical location chosen?**

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

- **How would you describe the animal chosen (size, physical description)**

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

- **Describe the habitat where it lives in the chosen geographical location (water, land, kind of trees, cave, etc.)**

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

- **What is particularly special about the animal that you chose?  
Why would it only survive in the geographical location chosen?**
